

# MICROBIOLOGICAL REVIEWS

VOLUME 46 • NUMBER 4 • DECEMBER 1982

## EDITORIAL BOARD

**HOWARD V. RICKENBERG**, *Editor* (1984)  
*National Jewish Hospital and Research Center*  
*Denver, Colo.*

---

<b>Giovanna Ferro-Luzzi Ames</b> (1982)	<b>Nancy E. Kleckner</b> (1984)	<b>David Schlessinger</b> (1984)
<b>Priscilla A. Campbell</b> (1983)	<b>Jeanne S. Poindexter</b> (1982)	<b>Patricia G. Spear</b> (1982)
<b>Rowland H. Davis</b> (1984)	<b>Norman D. Reed</b> (1983)	<b>Ralph S. Wolfe</b> (1984)
<b>Neal B. Groman</b> (1982)	<b>Barry P. Rosen</b> (1982)	<b>Meyer J. Wolin</b> (1983)

---

**Helen R. Whiteley**, *Chairman, Publications Board*  
**Linda M. Illig**, *Managing Editor, Journals*

---

**Walter G. Peter III**, *Director, Publications*  
**David R. Elwell**, *Production Editor*

---

*Microbiological Reviews* considers for publication both solicited and unsolicited reviews and monographs dealing with all aspects of microbiology. Manuscripts, proposals, and correspondence regarding editorial matters should be addressed to the Editor, Dr. Howard V. Rickenberg, Division of Molecular and Cellular Biology, National Jewish Hospital and Research Center, Denver, CO 80206.

---

*Microbiological Reviews* (ISSN 0146-0749) is published quarterly (March, June, September, and December), one volume per year, by the American Society for Microbiology. The nonmember subscription price is \$60 per year; single copies are \$20. The member subscription price is \$14 (foreign, \$15 [surface rate]) per year; single issues are \$6. Correspondence relating to subscriptions, reprints, defective copies, availability of back issues, lost or late proofs, disposition of submitted manuscripts, and general editorial matters should be directed to the ASM Publications Office, 1913 I St., NW, Washington, DC 20006 (area 202 833-9680).

Claims for missing issues from residents of the United States, Canada, and Mexico must be submitted within 3 months after publication of the issues; residents of all other countries must submit claims within 6 months of publication of the issues. Claims for issues missing because of failure to report an address change or for issues "missing from files" will not be allowed.

日本：価格は外貨表示とは関係なく円建。

Second-class postage paid at Washington, DC 20006, and at additional mailing offices.

POSTMASTER: Send address changes to *Microbiological Reviews*, ASM, 1913 I St., NW, Washington, DC 20006.

Made in the United States of America.

The code at the top of the first page of an article in this journal indicates the copyright owner's consent that copies of the article may be made for personal use or for personal use of specific clients. This consent is given on the condition, however, that the copier pay the stated per-copy fee through the Copyright Clearance Center, Inc., P.O. Box 765, Schenectady, NY 12301, for copying beyond that permitted by Sections 107 and 108 of the U.S. Copyright Law. This consent does not extend to other kinds of copying, such as copying for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale.

# 1983 Full Membership — American Society for Microbiology

1913 I St., NW, Washington, DC 20006

The Society welcomes to full membership any person who is interested in its objects, and who holds a bachelor's degree in microbiology or a related field (or who has had training and experience equivalent to that represented by a bachelor's degree).

The minimum annual membership assessment is \$50, which includes a general membership fee, *ASM News*, and \$41 toward subscriptions to the Society's scientific journals. The Society publishes nine scientific journals (listed below). Members may subscribe to one or more of these journals at special member rates; \$41 of the minimum dues payment of \$50 may be credited towards journal subscriptions. In addition, the Society publishes the monthly *ASM News*, which is sent to all members and contains news and announcements of interest to all microbiologists.

Memberships are initiated and renewed as of January each year. Unless there are directions to the contrary, membership nominations received prior to November 1 will be credited to the current year, and back issues of the selected publications for the current year will be furnished. Nominations received after November 1 will become effective the following January.

I. 1. Journals may be subscribed to at the following rates. Please enter the higher rate (column B) if you reside *outside* the U.S. and its possessions.

	A <input type="checkbox"/>	B <input type="checkbox"/>	
Journal of Bacteriology (JB) .....	\$37	\$46	_____
Antimicrobial Agents and Chemotherapy (AA) .....	\$29	\$36	_____
Applied and Environmental Microbiology (AE) .....	\$29	\$36	_____
International Journal of Systematic Bacteriology (IJ) .....	\$18	\$18	_____
Journal of Virology (JV) .....	\$37	\$44	_____
Journal of Clinical Microbiology (JC) .....	\$28	\$36	_____
Microbiological Reviews (MR) .....	\$16	\$20	_____
Infection and Immunity (IA) .....	\$37	\$44	_____
Molecular and Cellular Biology (CB) .....	\$22	\$26	_____

2. Membership Fee (includes *ASM News*) ..... \$ 9.00

3. Total dues and journals from lines 1 and 2 (MINIMUM PAYMENT \$50) ..... \$ \_\_\_\_\_

II.  Check this block if you prefer to receive only *ASM News* and remit \$50.

RATES ARE FOR 1983 ONLY

MR

Please enclose payment with application.

Prices are listed in U.S. dollars. Due to currency exchange difficulties and cost, foreign applicants in countries except Canada must remit in U.S. dollars by check or draft payable to ASM through a U.S. bank. Applicants from Canada may use checks drawn on Canadian banks, but remittance must be made in U.S. dollars.

## SUBJECT INDEX

### VOLUME 46

- Adenovirus gene expression  
control, 377
- Adhesins, host-specific fimbrial  
noninvasive enterotoxigenic *E. coli*, 129
- Aldrin  
microbial metabolism, 95
- Amino acids, microorganisms  
organochlorine insecticide effects, 95
- Amoebae  
proteinases, 308
- Animal cell mitochondria  
deoxyribonucleic acids, 208
- Animals  
mitochondria, 1  
papillomaviruses, 191
- Antibody  
complement-virus interactions, 71
- Antigenic cross-reactivity  
animal papillomaviruses, 191
- Aortic smooth muscle cells  
cholesterol ester accumulation, 296
- Archaeobacteria  
endosymbiont hypothesis, 1
- Aspartic proteinases  
fungi, 308
- Atheroma  
evolutionary hypothesis, 296
- Atmospheric chemistry  
denitrification, 43
- Bacillus subtilis*  
menaquinone biosynthesis, 241
- Bacteria  
denitrifying, 43  
division, 341  
growth, 341
- Bacterial toxins  
lethal amounts, 86
- Bacteroides melaninogenicus*  
menaquinone requirement, 241
- BK virus  
persistent infection, 384
- Bovine papillomavirus  
immunity, 191  
pathogenesis, 191
- Carbohydrate metabolism  
meningococcus pathogenicity, 162
- Carbon dioxide  
meningococcus pathogenicity, 162
- Carbon, organic  
denitrification, 43
- Catabolic pathways, microorganisms  
organochlorine insecticide effects, 95
- Cell membrane, microbial  
organochlorine insecticide effects, 95
- Cell morphology, microorganisms  
organochlorine insecticide effects, 95
- Chlorobenzilate  
microbial metabolism, 95
- Chloroplasts  
deoxyribonucleic acids, 208
- Chloropropylate  
microbial metabolism, 95
- Cholesterol esters  
accumulation, 296
- Ciliates  
proteinases, 308
- Complement  
interaction with virus and virus-infected cells, 71
- Complement system  
components and activation, 71  
host response to viral infection, 71
- Cottontail rabbit (Shope) papillomavirus  
immunity, 191  
pathogenesis, 191
- Cysteine proteinases  
fungi, 308
- Cytochromes  
mitochondria, 1
- Cytochromes *c<sub>6</sub>* (*f*)  
plastids, 1
- Dehydrochlorination  
microbial organochlorine insecticide metabolism, 95
- Denitrification  
aquatic systems, 43  
bacteria, 43  
global aspects, 43  
methods, 43  
physiology and biochemistry, 43  
terrestrial systems, 43
- Deoxyribonucleic acid  
mitochondria, 1
- Deoxyribonucleic acids  
organelles, 208
- Dieldrin  
microbial metabolism, 95
- 1,4-Dihydroxy-2-naphthoate  
bacterial menaquinone synthesis, 241
- Endosulfan  
microbial metabolism, 95
- Endosymbiont hypothesis  
proven?, 1
- Endotoxin  
meningococcus pathogenicity, 162
- Entamoeba*  
lipid metabolism, 296
- Enterotoxigenic *Escherichia coli*, noninvasive  
host-specific fimbrial adhesins, 129
- Enzymes  
microbial organochlorine insecticide metabolism, 95
- Enzymes, microorganisms  
organochlorine insecticide effects, 95

- Escherichia coli*  
 menaquinone biosynthesis, 241  
 risks in cloning toxin genes, 86
- Escherichia coli*, noninvasive enterotoxigenic  
 host-specific fimbrial adhesins, 129
- Ethionine  
 molecular aspects of effects, 281
- Eubacteria  
 differences from eucaryotes, 1
- Eucaryotes  
 differences from eubacteria, 1  
*S*-adenosyl-L-ethionine synthesis, 281
- Eucaryotic chloroplasts  
 deoxyribonucleic acids, 208
- Eucaryotic microorganisms  
 proteinases, 308
- Eucaryotic mitochondria  
 deoxyribonucleic acids, 208
- Evolution  
 organelle genomes, 208
- Ferredoxins  
 plastids, 1
- Fimbrial adhesins, host-specific  
 noninvasive enterotoxigenic *E. coli*, 129
- Flagellates  
 proteinases, 308
- Fungi  
 mitochondria, 1  
 proteinases, 308
- Halobacteria  
 endosymbiont hypothesis, 1
- Hemorrhagic lesions  
 meningococcus pathogenicity, 162
- Heptachlor  
 microbial metabolism, 95
- 1,2,3,4,5,6-Hexachlorocyclohexane  
 microbial metabolism, 95
- Human papillomavirus  
 pathogenesis, 191
- Human viral infections  
 complement, 71
- Immunity  
 animal papillomaviruses, 191  
 meningococcal disease, 162
- Insecticides, organochlorine  
*See* Organochlorine insecticides
- Intestinal bacteria  
 menaquinone biosynthesis, 241
- Introns  
 evolution, 208
- Iron  
 meningococcus virulence, 162

# 1983 Student Membership — American Society for Microbiology

1913 I St., NW, Washington, DC 20006

Any regularly matriculated student majoring in microbiology or a related field is eligible for election as a Student Member. Student Members have all privileges of membership except the right to vote and hold office in the Society.

Student Members receive the monthly *ASM News* and are entitled to subscribe to the Society's journals at member rates.

Memberships are initiated and renewed in January of each year. Unless there are directions to the contrary, membership nominations received prior to November 1 will be credited to the current year, and back issues of the selected publications for the current year will be furnished if available. Nominations received after November 1 will become effective the following January.
